

Tatapudi Rajesh

Aspiring Software Developer | Full-Stack Enthusiast

+91-9182327043 | rajeshtatapudi1819@gmail.com | Narasaraopeta, Andhra Pradesh, India

PROFESSIONAL SUMMARY

A creative and driven Computer Science undergraduate with strong foundations in C, C++, and Python programming. Experienced in building scalable applications with React, Node.js, and MySQL. Knowledgeable in Object-Oriented Programming (OOP), debugging, and writing clean, efficient, and maintainable code. Seeking to apply technical expertise in software development and innovative projects.

EDUCATION

- | | |
|---|-----------|
| <ul style="list-style-type: none">• B.Tech - Computer Science and Engineering
Narasaraopeta Engineering College, Narasaraopet
Current CGPA: 7.90 | 2022–2026 |
| <ul style="list-style-type: none">• Intermediate (MPC)
Vagdevi Junior College, Narasaraopet
Percentage: 75.9% | 2020–2022 |
| <ul style="list-style-type: none">• SSC
Infant Jesus High School, Nadendla
Percentage: 92.5% | 2019–2020 |

TECHNICAL SKILLS

- **Languages:** C, C++, Python, JavaScript, PHP, HTML, CSS, SQL
- **Frameworks & Libraries:** React.js, Node.js, Angular (Basics)
- **Databases:** MySQL, MongoDB
- **Concepts:** Object-Oriented Programming, Debugging, Code Optimization
- **Tools & Platforms:** Git, GitHub, FLask, AWS (EC2), Postman

PROJECTS

- | | |
|---|---------------------|
| <ul style="list-style-type: none">• Cyberbullying Detection
Role: Team Lead <ul style="list-style-type: none">– Designed and implemented a local prototype for cyberbullying detection in text and images.– Integrated BLIP for image understanding and BERT for text classification.– Built RESTful APIs with CORS, rate limiting, and structured error handling.– Developed a responsive analytics dashboard using Chart.js.– Validated performance locally with multiple content types (text, images, combined).– Performance Metrics (Local Testing): Text accuracy ~90%, Image accuracy ~85%; average response times ~1–2 minutes (prototype level).– Prototype processed 500+ content pieces in testing and supported 50 concurrent local sessions. | Jun 2025 |
| <ul style="list-style-type: none">• Smart Stock Tracker
Role: Team Lead <ul style="list-style-type: none">– Built a stock tracking application using React.js, Node.js, and MySQL.– Implemented responsive dashboards, CRUD operations, and dynamic watchlists.– Focused on performance optimization and scalability. | Dec 2024 – Mar 2025 |
| <ul style="list-style-type: none">• Online Voting Awareness Platform
Role: Team Lead <ul style="list-style-type: none">– Developed an educational platform using Angular, Node.js, and MySQL.– Prepared technical documentation and test procedures.– Recognized by faculty and reused as a resource by future student batches. | Jun 2024 – Nov 2024 |

ACHIEVEMENTS & CERTIFICATIONS

- **Hackathon Winner:** Led a team to secure First Prize in a frontend web development hackathon.
- **CODE ELITES Contest:** First Prize in departmental coding competition.
- **Certifications:**
 - Infosys Springboard: MEAN Stack, Python, Prompt Engineering
 - NPTEL: The Joy of Python
 - APSSDC: Python Programming, AWS (EC2 Instance Creation)

POSITIONS OF RESPONSIBILITY

- Team Lead for all major academic projects (Cyberbullying Detection, Smart Stock Tracker, Online Voting Awareness Platform) with maximum responsibility in design, implementation, and coordination.
- Ensured code quality, documentation, testing, and timely delivery while mentoring team members.
- Coordinated cross-functional tasks such as API design, UI/UX integration, and deployment planning.
